## ACADEMIC INTERESTS

---

3D Machine Learning, Diffusion Models, Neural Rendering, Physically Based Rendering

## EDUCATION

---

**Korea Advanced Institute of Science and Technology, KAIST** *Mar. 2019 - Present*  
*Bachelor of Science in Computer Science (Major) & Electrical Engineering (Minor)*

## WORK EXPERIENCE

---

**Geometric AI Lab, School of Computing, KAIST** *June. 2021 - Present*  
*Undergraduate Intern*

## PUBLICATIONS

---

- [SALAD: Part-Level Latent Diffusion for 3D Shape Generation and Manipulation](#)  
Juil Koo\*, **Seungwoo Yoo\***, Minh Hieu Nguyen\*, Minhyuk Sung (\* denotes equal contribution.)  
*arXiv preprint*

## TEACHING EXPERIENCE

---

<b>CS380: Introduction to Computer Graphics</b> <i>Teaching Assistant</i>	School of Computing, KAIST <i>Spring 2023</i>
<b>CS492(A): Machine Learning for 3D Data</b> <i>Teaching Assistant</i>	School of Computing, KAIST <i>Spring 2022</i>

## SCHOLARSHIPS AND ACHIEVEMENTS

---

**Presidential Scholarship** *2019 - 2022*  
*Korea Student Aid Foundation (KOSAF)*

**Grand Prix (1st place), Undergraduate Research Participation (URP) Program** *Winter/Spring 2022*  
*Associate Vice President of Research, KAIST*

**Dean's List** *Spring 2020, Fall 2020, Fall 2021*  
*College of Engineering, KAIST*

**Merit-Based Scholarship** *Fall 2020*  
*College of Engineering, KAIST*

## SKILLS

---

<b>Programming Languages</b>	C, C++, Python
<b>Deep Learning Frameworks</b>	PyTorch
<b>Languages</b>	Korean (Native), English (Fluent)
